A MESSAGE FROM THE NEW PRESIDENT

It is with much sadness that I accept the title of President my dear friend and partner held until his untimely death early February Joe Rust was an extremely talented machinist and was the heart and soul of this organization for so long, at first it was inconceivable to me how we could continue without him As you can imagine, it has been a very difficult year all of us here at the mint on many levels, but I am comforted by the support of our good friends and associates who have helped us through in the past months

I took a six month hiatus from mint operations to rethink and re group choosing instead to concentrate on the completion of the RV park Joe had been working on for the past two years The Eureka Music Park is now in business and hosted its first bluegrass festival on the Joe Rust Memorial Stage at the end of August A wonderful time was had by the light turnout, and the future of the park looks very positive

Working on the RV park was very therapeutic to me and I now return to Gallery Mint with a new found hope. Exciting things are underway With the formation of the new Gallery Mint Museum Foundation the future of the museum looks bright The energetic and enthusiastic Board of Directors have breathed new life into the endeavor, and their input will result in a museum of a much higher caliber that Joe and I ever imagined

I sincerely apologize to all our customers who have been disappointed with the lack of new products from Gallery Mint recently I also appreciate your patience through these difficult times We have a few new items available now that were prepared back in December but not yet released through our regular mailings Also, a few limited edition 1792 pattern reproductions are still available New products will be available soon as I return to my work at the engraving bench Also, be looking for us at some upcoming shows

Sincerely

Ron Landis
President, Gallery Mint Corporation

2005 HOBO TOKENS AVAILABLE

The legendary and mythical designs of a Leprechaun and a Unicorn have been chosen Composed of silver and the same size as real Buffalo nickels, these collector favorites are again available for only $12 each

(Above) 2005 Style 1 Hobo token with Unicorn on the reverse (Below) 2005 Style 2 Hobo token with Leprechaun on the obverse Still only $12 each!

2005 HIGH RELIEF WINGED LIBERTY DIMES AVAILABLE

A fantasy version of the classic "Mercury Dime", this reproduction is slightly larger and much thicker than the coin it is based on You must see the actual piece to fully appreciate the exquisite ultra high relief portrait of this beautiful piece designed by Adolph Weinman

Mintage is extremely low on this piece which go out of production at the end of this year

Struck in solid silver, this piece is a must have for any mercury dime collector or anyone who appreciates classic American numismatic art
